PHOENIX (3TV/CBS 5) -- Arizonans now have three COVID-19 vaccines to choose from – Pfizer, Moderna, and Johnson & Johnson. Pfizer and Moderna require two doses while Johnson & Johnson is one and done.

Which vaccine should you get?

Dr. Michael White, a Chief Medical Officer with Valleywise Health, said all vaccine options in Arizona are safe and effective. "Most of the memes I've seen have been around the lack of effectiveness of the single-dose Johnson and Johnson vaccine, but what we truly know is they are all **equal in being able to prevent us from having complications** from COVID- 19 disease."

Tips & Tricks

HOW TO GET A VACCINE APPOINTMENT

- **Early Hours:** Many of our viewers say they snagged an appointment by getting online either very early in the morning or in the middle of the night. Appointments are opening up all the time so it's important to check frequently for available slots.
- **Vaccine Finder:** This site is quite the gem. It will help you look for vaccine availabilities close to your zip code. You can also search based on the type of vaccine you want to get.
- **Booking through AZDHS:** Be sure to register your account before trying to make an appointment. Every Friday at 11 a.m., the state releases vaccine appointments for the next week. We recommend getting online around 10:30 a.m. because they sometimes release the appointments before 11 a.m. Also, appointments get canceled throughout the week. Check back regularly for available appointments.

- **Want a specific vaccine?** If you are wanting a particular vaccine and you live in Maricopa County, you can sort locations based on what type of vaccine they are distributing. Just go to the [health department's website](#).
- **Vaccine Hunter's FB Group:** Many of our viewers have used this group to find a location to get a vaccine.

Johnson & Johnson appointments

Johnson & Johnson has been hard to get for many folks in the Phoenix area. Johnsons & Johnson vaccines are not currently being distributed by the Arizona Department of Health Services through its [state-run operations](#). What's even more frustrating for Arizonans is that they have to try multiple websites for available J&J appointments.
